

The following map shows the 20 facilities referenced in response to Interrogatories Nos. 92, 93, 94, 97 and 99, which are within a 150 mile radius of GREC.

93. Please refer to Exhibit 29, page 27. Please supply a list of woody biomass projects within the 75 mile radius that are currently approved or have applications pending before the Florida Department of Environmental Protection. As part of this response, please supply a summary of the biomass project, the approximate capacity (if an electrical generator), estimated annual biomass resource need, the company(ies) applying for the permit, and whether any purchase power agreements have been executed and with whom.

Response to Interrogatory No. 93:

Please refer to the table labeled *Response to Interrogatory No. 93* for the requested information. An electronic version of the table labeled *Response to Interrogatory No. 93*

is included in the file titled *Response to Interrogatories 91 through 99.xls* on the enclosed CD.

The fact that a project has filed, or received, a permit from a regulatory agency is not a good indicator that a particular project will actually be constructed and placed into operation. Many other elements, such as a financeable PPA with a credit-worthy offtaker for a proposed electrical generator, are necessary before a project can begin construction.

RESPONSES TO STAFF'S FOURTH SET OF INTERROGATORIES TO
 GAINESVILLE RENEWABLE ENERGY CENTER (NOS. 80-106)

REGISTRATION TO BUREAU OF ENERGY (No. 3)

Biomass Facility Name	Map no. (overall map)	Owner/Facility	Type of Facility	State	County	City	Distance from GREC (road miles)	Descriptive Summary of the Project	Approximate Capacity (MW)(1)	Est. Annual Biomass Feedstock Required (million green tons)	Type of Biomass Materials	Company Applying for the Permit	Permit Approved or Pending	DPA Executed? / Contingency	PEA Feasible?	Current Status of Project	Comment
1) ADAGE Hamilton Co.	4	ADAGE	Electrical generator	FL	Hamilton	Talbot	70	35 MW wood-fired biomass plant	30	0.50	Logging residue, mill residue, source separated construction wood waste	ADAGE Hamilton, LLC	Construction permit issued FL DEP 1/21/08 # 047016-001-AC	No	*	Announced 4/2009	Final air construction permit issued 1/2010
2) Buckeye	5	Buckeye Florida L.P.	Pulp mill	FL	Taylor	Foley	79 (c)	Pulp mill with biomass generating capability	51	1.88	Pulpwood, bark, wastewood	Buckeye Florida, LP	Construction permit issued FL DEP 8/21/05 # 13230031-023-AC	*	*	Additional electrical capacity in development	Current capacity is 33 MW and they are proposing an additional 12 MW of biomass power (total annual biomass resource includes material needed for pulping process as well as 14 boiler

(1) Woody biomass projects within the 75 mile radius that are currently approved or have applications pending before the DEP
 (2) Only for electrical generators
 (3) Buckeye has been included. Buckeye is within 75 miles of GRC. *is the only "filed"; however, Buckeye is 79 road miles from GREC. The information that were compiled from publicly available data; however, GREC LLC is not able to independently verify the information.
