Lights are Available in Four Rate Classes:
(Note: The rates indicated in this document are for Class 3,
Rental Light Rates- see below)

* Light Rate Classes:

All GRU Rental Lights covered under the "Light Rate Classes" listed below are owned by GRU. Lights installed behind a meter are private lights owned by the customer.

- 1) Public Street Light Rate Class: This class of light rates are lights used by a governmental body, mainly the City of Gainesville or Alachua County Board of Commissioners (Public Works) which pays the monthly rental rate. The monthly Public Street Light Rate includes all materials *including wire*, the cost of installation, maintenance and energy of the light(s). The rental rate for lights does not include the rental rate of a **pole to support the light. If a pole is necessary to support a rental light a separate pole rental rate shall be charged in addition to light rental rate. The monthly Pole Rental Rate includes all materials including wire, the cost of installation and maintenance of the pole(s). The pole shall also be rented under this same class.
- 2) Public Agency Light Rate Class: This class of light rates are lights used by a governmental body, mainly the City of Gainesville or Alachua County Board of Commissioners (Public Works), and the monthly rental rate is paid for by the Public Agency. The Public Agency monthly rate, which allows the agency to "Buy Down" the rental rate, includes the energy charge and normal maintenance cost ONLY. The rates for lights do not include the installation of **poles. The installation cost (materials, *including wire*, GRU engineering, construction cost and overheads) for lights and poles (if needed) shall be paid for up front by the governmental body responsible for the monthly rental charges prior to installation by GRU. **The ownership of the lights and poles remains with GRU.**
- 3) Rental Light Rate Class: This class of light rates are lights used by a commercial, industrial or residential customer where the monthly rental rate is paid for by the customer. The monthly Rental Light Rate includes all materials *including wire*, the cost of installation, maintenance and energy of the light(s). The rental rate for lights does not include the rental rate of a **pole to support the light. If a pole is necessary to support a rental light a separate pole rental rate shall be charged in addition to light rental rate. The monthly Pole Rental Rate includes all materials including wire, the cost of installation and maintenance of the pole(s). The pole shall also be rented under this same class.
- 4) Rental Agency Light Rate Class: This class of light rates are lights used by a commercial, industrial or residential customer and the monthly rental rate is paid for by the customer. The Rental Agency monthly rate, which allows the agency to "Buy Down" the rental rate, includes the energy charge and normal maintenance cost ONLY. The rates for lights do not include the installation of **poles. The installation cost (materials, *including wire*, GRU engineering, construction cost and overheads) for lights and poles (if needed) shall be paid for up front by the customer responsible for the monthly rental charges prior to installation by GRU. **The ownership of the lights and poles remains with GRU.**

* **All Light Rate Classes do not include fuel adjustments, taxes or fees.**

** **GRU Rental Lights may be installed on GRU distribution poles or GRU Rental Light Poles ONLY.**
